

Optimal Transport and Uncertainty

Friday, 26 November 2021

main contributions - Dipartimento di Matematica (14:30 - 17:30)

time	[id] title	presenter
14:30	[1] Euclidean Random Assignment Problems, old and new	Prof. D'ACHILLE, Matteo
15:15	[2] Optimal transport, wave functions and single electron densities	Prof. DE PASCALE, Luigi
16:00	[3] There is no invariant cyclically monotone Poisson matching in 2d	Prof. MATTESINI, Francesco
16:45	[4] Optimal quantization strategies for vectorial signals	Prof. STEPANOV, Eugene
